Stage Set For Danville's Fair Starting Tuesday

Fair Grounds Getting Busy As Date of Annual Event Draws Near.

The stage is all set for the opening of the New Danville Fair, next Tuesday and all that remains to be done is to care for the big crowds that are expected to attend. The new grounds, stands and buildings are the last word in fair construction. For several days the fair grounds have been filled with autos and wagons heaped high with educational exhibits, tents and stands for concessions and decorations. Much of this work has been finished and only a few finishing touches must be made to put things in complete readiness for the visitors.

The liberality of the fair management in offering so many liberal premiums for all kinds of exhibits has attracted an unusually large list of exhibitors of all kinds of products. The livestock show will be particularly interesting. The finest stock in this section of the country will be exhibited.

Competition in the women's work department is keen, and the smell of the prize cooking will tantalize many. Boys and girls have entered many exhibits from barn and garden, and the grown-ups will have to hustle to beat some of them in instances where the old and young are permitted to compete against each other.

"We believe our fair will surpass any other ever held here," said Secretary H. B. Watkins, today. "There has been a greater interest in the fair this year than ever before. We think that our big educational show is not responsible alone for the greater interest, but the splendid entertainment program, too. We have planned an amusement program which will keep visitors on their toes from morning until evening. The entertainment features of the fair include fireworks, free acts, a midway show and music."

Vast Quantity Of Tobacco Taken To Elkin Market

ELKIN, Oct. 6.—Elkin was crowded with farmers Tuesday, the opening day of the co-operative tobacco market. A thousand or more members of the association attended on the opening day, and at least 75,000 pounds of leaf was received. Quantities continue to be brought in every day, and the farmers seem pleased with the methods of handling their products.

While vast numbers have pledged their support to the co-operative association, the Liberty Auction Sales warehouse is sustaining a liberal patronage and sales on its floors are steadily increasing. Prices are growing stronger, as better grades are being brought in. Fifty-eight dollars was paid for tobacco there this week.

Heavy Receipts Mark First Week

Auction Houses Sold 1,460,994 Pounds of Leaf at \$31.85 Average—A Big Week Coming as 'Season' Sets In.

Rain which began falling during the night brought welcomed relief after a protracted drought, and also tobacco market opened.

It was generally anticipated today that next Tuesday will see the greatest quantity of tobacco in Danville since the season began and the local warehouses and delivery plants are preparing for what may prove to be a glut. Many farmers anxious to sell yet who have not artificial methods of "forcing" their tobacco will seize this opportunity to bring in their curing and probably offerings of good stalk tobacco will be seen during the ensuing week.

With four sales running here and the pool plants prepared to give rapid service a great deal of tobacco is expected to be marketed here on Tuesday.

The opening week of the Danville season was highly auspicious, the auction houses selling, according to the official figures 1,460,994 pounds of leaf for \$31.85, the average being \$31.85 per hundred.

Receipts by the Co-operative Marketing Association are also described as being good although the figures are not yet given out.

Kreis' Condition Reported Better

R. H. Kreis who was shot by William Jones, colored laborer at the Stacey road construction camp on Thursday and who is now a patient in Edmund's hospital, was reported this morning as very much better and high hopes for his recovery are entertained. The bullet has been located in the back of the chest on the right side where it will be allowed to remain for the time being.

No clue has been found which might lead to the apprehension of Jones who is still at large.

U. S. Ships Can Have No Liquor No Matter Where Operated—Booze on Foreign Ships in American Waters Prohibited.

(By The Associated Press.)

WASHINGTON, Oct. 7.—The executive branch of the government is proceeding with the immediate enforcement of the recent act and enforcement act by the local branch as prohibiting transportation, and the sale of liquor on American vessels, wherever operated, and the presence of liquor on foreign ships anywhere within American territorial waters.

Interpretation Is Victory For Drys

U. S. Ships Can Have No Liquor No Matter Where Operated—Booze on Foreign Ships in American Waters Prohibited.

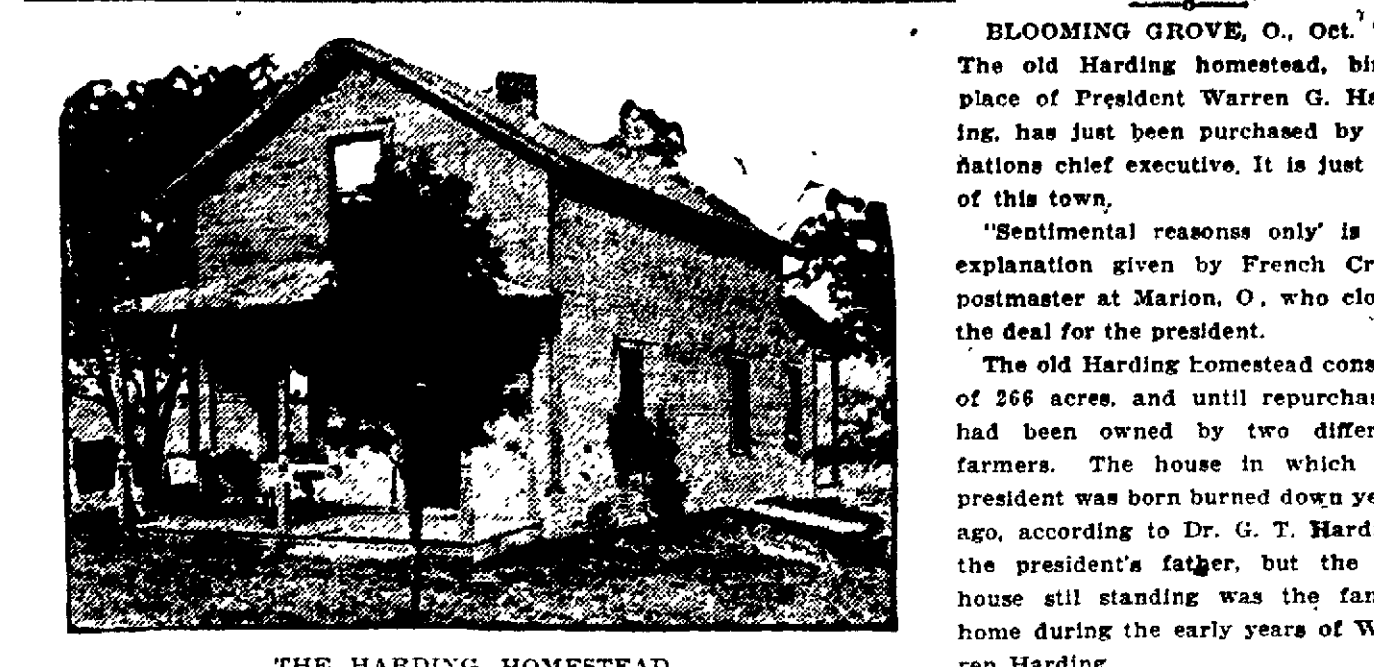

(By The Associated Press.)

WASHINGTON, Oct. 7.—The executive branch of the government is proceeding with the immediate enforcement of the recent act and enforcement act by the local branch as prohibiting transportation, and the sale of liquor on American vessels, wherever operated, and the presence of liquor on foreign ships anywhere within American territorial waters.

Presented Credentials

CARTERSVILLE, Pa., Oct. 6.—Mrs. William H. Felton, of Cartersville, presented her credentials to the Georgia State Convention for the death of Thomas E. Watson until the general election of November 7, was presented her credentials by Governor Hardaway here tonight. The presentation was made at a celebration in honor of Mrs. Felton.

HARDING PURCHASES BIRTHPLACE

THE HARDING HOMESTEAD.

BLOOMING GROVE, O., Oct. 7.—The old Harding homestead, birthplace of President Warren G. Harding, has just been purchased by the nation's chief executive. It is just out of this town.

"Sentimental reasons only" is the explanation given by French Crow, postmaster at Marion, O., who closed the deal for the president.

The old Harding homestead consists of 266 acres, and until repurchased, had been owned by two different farmers. The house in which the president was born burned down years ago, according to Dr. G. T. Harding, the president's father, but the old house still standing was the family home during the early years of Warren Harding.

Turks to Occupy Thrace Only After Treaty Is Made

Great Britain and France Agree in Principle As to Nationalists Occupation of Thrace.

(By The Associated Press.)

PARIS, Oct. 7.—Great Britain and France, as represented by foreign Secretary Curzon and Premier Poincare, have agreed in principle that troops of Turkish Nationalists shall be allowed to occupy eastern Thrace only after conclusion of a peace treaty.

Green Case May Go Supreme Court

Judge Withers will next Saturday hear arguments on a motion to set aside the verdict rendered in the Ruffin-Green damage suit and to enter judgment for the defendant, this date being set yesterday. A transcript of the evidence is being prepared and this will be presented with arguments after which the court will take the matter under advisement.

It now seems certain that in the event of a negative decision by the court on the motion made by Mrs. Green's counsel that the case will be taken to the Supreme court which under the act of 1919 will make final disposition of the matter by either affirming the Corporation court jury's verdict or by setting aside the verdict and entering judgment for the defendant. The Supreme court will make a final decision of the case when it sits.

At 84 He Tramps 500 Miles Easily

Edward Weston Arrives in New York From Buffalo Two Days Ahead of Time.

NEW YORK, Oct. 6.—Edward Payson Weston, in his eighty-fourth year, walked into New York last night, two days ahead of his hiking schedule from Buffalo to City Hall, Manhattan. Starting at noon, Sept. 4, he hoped to cover the 450 miles in thirty days not walking Sundays, and getting here tomorrow night, making it 500 miles by doing fifty additional miles in this city.

When he reached City Hall today from the Hotel Theresa, Seventh avenue and 125th street, where he slept last night, Weston will have walked 495 miles, with only five miles to make up before tomorrow night. He made up the other forty-five miles on the way.

Spry for even a man of sixty-five, and as proud of this record as a girl with a new hat, he stepped out into the city streets today morning after a good night's sleep. He walked twenty-two miles yesterday between 8 a. m. and 6 p. m., stopping for three hours' rest at Tonawanda. He was accompanied from Schenectady by Cooper Edgerly A. Drasey of G. troops. State Police, who was assigned by Capt. E. F. Tobey of Troy to prevent automobiles running him down.

"I feel just as good as I did twelve years ago," he said to a reporter who accompanied him from Tarrytown and happened to be the same reporter who walked into New York with him on his famous hike in seventy-six days and twenty-three hours in 1910.

"Ordinarily, a man at my age finds the cords back of the knee shortening and hardening, but to my surprise on Friday, Sept. 15, say, from Port Jervis to Syracuse, I found I was hitting a four-mile-an-hour clip. Two days I did thirty miles each and never a bit of trouble from the cords."

He walked into Utica, west to the skin with rain, but next morning was all right. The first mile in the morning a man feels he has all the diseases flesh is heir to. He wants to sit down. The second he finds he wants to do a hundred before he stops. It's extraordinary because I haven't used these muscles for ten years in real walking.

Of course, I'm doing this walk to spread the philosophy of walking for health instead of trusting to doctors. I'm doing it for the sake of young America."

Clad in a bettered Panama hat, which some one had just cribbed at Tonawanda, white silk shirt, khaki riding breeches, ancient leather leggings that have accompanied him on many of his 35,000 miles, and tan shoes, his rosy eager old face peered from under a bushy white beard.

Life Insurance—"Buy from Best."

Baptists At Work On Closing Up Of 75 Million Drive

The Southern Baptist church is now closing what is known as its supplemental or reinforcement campaign the object of which is to close up the Seventy-Five Million Campaign.

The campaign now in progress in Danville as well as every other city of size in the church territory is threefold. It is to advise the forty what has been done with the forty million dollars already collected to visit and solicit those who were missed in the last canvass and finally to enlist the active support of those who have come into the church during the last three years during which time the campaign has been running.

Rev. J. M. Shelburne, D. D., pastor of the First Baptist church, said this morning that by December 3rd which will mark the close of the third year more than fifty million dollars will have been contributed.

He says, "I am leading all of the states in the payment of pledges. Since the drive was started it is estimated that 300,000 persons have joined the Southern Baptist church, thus affording a new large field still to be solicited."

Praise Fliers For Record

SAN DIEGO, Cal., Oct. 7.—While Lieutenant John Macready and Oakley Kelly were catching up on some sleep last night flying over this city over thirty-five hours to smash all records of sustained flight, officers and men of Rockwell field school praise to the fliers and the powerful liberty motor which carried them in their record-breaking flight.

Fourth Game To Be Today

Safety Pin Is Taken From Infant's Stomach

ATLANTA, Ga., Oct. 6.—An operation performed, by which an open safety pin was taken from the stomach of Mac Asbill, Jr., six months' old son of a well-known Atlanta attorney, was today characterized by doctors as one of the most remarkable feats in the history of surgery.

By means of a wire loop at the end of a rod a foot and a half long the point of the pin, which rested just at the entrance to the baby's stomach, was pushed under the safety catch, and then the pin was drawn out without injury to the child. In addition to the wire loop, the doctor used a tiny pair of pincers on the end of two long pieces of wire and lowered down the baby's throat a tiny electric light to enable him to see.

The entire operation was performed without anesthetic and lasted about fifteen minutes. The child had swallowed the pin while in bed. His mother, hearing him scream, noticed when she went to him that the tiny pin used to hold down the blanket in which he was wrapped was missing. However, as the baby soon stopped crying she decided that he was all right. Careful search failed to locate the missing pin. The doctor was called as a precaution.

Huggins' Yankees to Put Forth Every Effort to Recover Losses.

(By The Associated Press.)

NEW YORK, Oct. 7.—Their aspirations cooled by the frigid breath of a ghost from baseball's graveyard, Miller Huggins' Yankees today stood in the shadows of their own tomb. They must recover from the bludgeoning of phantom Long John Scott, whose rattling Tarheel bones gave them a scare yesterday, likes of which only one team in the world series history has recovered. Administering a three to nothing defeat.

Tobacco Receipts Growing Heavier

KINSTON, N. C., Oct. 7.—Heavier receipts are being had at the co-operative marketing association's tobacco warehouse here and at LaGrange, Ga., today. The LaGrange co-op market recently have averaged approximately 50,000 pounds. Figures for Kinston were not available today. In this city the association controls one of the largest warehouses in the South.

The independent market here will probably close by Christmas, possibly earlier. Sales cards do not call for selling after December 25. It is estimated that more than one-half of the crop not pledged to co-operative marketing has been sold. The independent growers have reaped a good profit. Hundreds of thousands of dollars have been paid by farmers and tenants on debts contracted in the recent lean years.

Co-operative association leaders say the organized growers have marketed a record crop of tobacco. Millions of pounds are outstanding to be delivered to the warehouses in orderly fashion, and this business, they claim, will extend over a period of months, probably well into 1923. Gradual marketing has been urged by their directors.

Bonar Law's Letter Causes a Sensation

(By The Associated Press.)

LONDON, Oct. 7.—A sensation has been caused by the letter from Andrew Bonar Law upholding the British government's attitude in the near eastern crisis. The pronouncement was widely held to mark a definite break with the British policy in the Near East.

The letter, which was sent to the king, and completely terminate the entente unless France comes into line with the British policy in the Near East.

Sultan Said To Have Quit Turk Throne

(By The Associated Press.)

LONDON, Oct. 7.—The report that Sultan Mehmed VI. had resigned his throne, and that the Russian delegation here, according to wireless dispatches from Moscow.

Calvary Church Quarterly Meet

The fourth quarterly conference of Calvary M. E. church, South, was held last night at 8 o'clock. The meeting was held at Calvary, and was presided over by the pastor, Rev. J. M. Allen. The conference was one of the most interesting meetings of the year. The pastor's report on the general state of the church indicated that every interest was being carried on with vigor and that a spirit of harmony and good feeling prevailed.

The conference unanimously resolved to have the presiding elder and pastor to use every creditable means within his office to have Rev. Joseph T. Allen returned to the church for another year. Rev. Mr. Allen is closing his third year at Calvary, and has been brought out in the resolution that the year that is closing has been the best of any of the others and that the prospect for the next was still better.

The conference was also unanimous in its request for the return of Rev. S. J. Battin to the presiding elder. Both presiding elder and pastor expressed appreciation to the board as well as a desire to return.

The conference elected the following board of stewards to serve for the coming year: J. W. Yarbrough, A. R. Parker, C. H. Ferguson, J. W. Sams, G. Anderson, Arthur Council, O. G. Fentris, H. E. Ferguson, A. J. Grady, B. A. Pollok, L. W. Purdum, Jr., J. S. Richardson, L. M. Tanner, G. F. Walcott, W. H. Avey, S. J. Battin to be presiding elder and S. J. Battin to be pastor. Mr. Martin was elected superintendent of the Sunday school.

There have been about two hundred additions to the church during the past year, and the pastor expects that he will leave Monday for Norfolk, the seat of the conference.

Coke Region Is Scene Of Blast

(By The Associated Press.)

UNIONTOWN, Pa., Oct. 7.—The most serious dynamiting in the Connellsville coke strike region for several months occurred today when three heavy blasts closed the pit mouth of the Provant mine, destroyed the tipples and demolished the fan-house. Plans had been made to open the mine Monday with non-union labor.

80 Nations To Be Represented At Dry Meeting

TORONTO, Canada, Oct. 7.—More than 80 nations are expected to be represented at the convention of the World League Against Alcoholism, to be held here from November 24 to 29, according to Dr. Ernest H. Cherrington, general secretary of the league.

In no previous convention or conference, including the famous Congress of religions in Chicago years ago, have so many separate and distinct nations gathered and participated as will have part in this convention. Dr. Cherrington said.

One of the important questions to be discussed is that of international relations regarding trade treaties and other agreements respecting self-determination of nations in regard to liquor and maintaining liquor control. The conduct of liquor-carrying vessels on the high seas with respect to supplying smugglers of liquor into dry territory and internal policies adopted by independent nations also will be discussed.

Many English prohibition leaders are scheduled to appear on the program. Among them are Dr. T. W. Salsbery, London physician; Miss Agnes E. Slack, writer and speaker for temperance reform; Lieft Jones, labor leader and former member of the House of Commons; Dr. W. L. Baker of Switzerland; Dr. P. A. Lauanque of Westerville, O., general superintendent of the Anti-Saloon League; and Miss Anna A. Gordon of Evanston, Ill., president of the national and world's W. C. T. U. Dr. Robert Herod, secretary of the Scientific Temperance Federation.

Arrangements are being made for an attendance of 3,000, of which more than one thousand are expected from the United States.

Farmer Is Killed

STAUNTON, Va., Oct. 6.—Samuel Taylor, farmer, was instantly killed today when his automobile left the road and turned turtle near his home. He was pinned beneath the machine. Mr. Taylor was 40 years old and ten children were survived by his widow and ten children.

Abrams Promises He'll Find Missing Financier by Examining Signature—Seeks Cash for Clinics.

NEW YORK, Oct. 6.—Dr. Albert Abrams, the electronic method of diagnosis and treatment of disease, is at the Hotel Astor. He lectures in Carnegie hall tomorrow evening and then goes to Boston. Dr. Abrams visits the east, seeking support for clinics for his theory in this country and Europe.

In an interview yesterday he expressed his eagerness to give all his time and energy to his clinics and to the support of his theory. He said he was a condensation of the multitudinous vibrations of the body.

He said the R. A. S. can determine conditions of the human body in their incipient before clinical manifestations are evident. The claim is emphasized strongly in a recent article in Pearson's Magazine by Alexander Mackay, its editor, who introduced the present writer to Dr. Abrams yesterday.

"Everything in nature has its natural period of rate of vibration," Dr. Abrams said. "The response of the harp to the tuning fork is merely the expression of a certain vibratory rate. Something with a similar rate can be imposed upon it and destroy it."

Dr. Abrams said he could determine the rate of vibration of a piece of writing he can tell the approximate present location of the writer.

"If writing by Tom Lawson of Boston is subjected to my examination at Carnegie Hall tomorrow, I will undertake to tell pretty nearly what Mr. Lawson is," he said.

Scoop's Colyum

PLEASANT GAP, Oct. 7.—(Grape-vine Wireless).—A little homepun philosophy for Saturday night meditation: "There are seven openings in your head—of which the mouth is only one." That was the obvious information once imparted to a garrulous woman whose gossip talkativeness had caused annoyance.

Then, she was penitent and sufficiently docile to be open to suggestion. Therefore, that facial photograph was offered to her, with the added hint: That, as the mouth was only one of six compared with the combined openings of the eyes, nostrils and ears, she would be wise to talk at least six times as much as she gave out.

All of which is picturequely hinted by the Three Little Monkeys of the famous Japanese temple. There they squat, huddled close, the very embodiment of ancient wisdom born of experience. One has two forepaws clapped over eyes, a second over ears, a third over mouth. And the injunction of the symbolism, plain as the spoken word, is:

SEE NO EVIL; HEAR NO EVIL; SPEAK NO EVIL!

We repeat the text: "There are seven openings in your head—of which the mouth is only one." Take in at least six times as much as you give out. In other words, keep your mouth shut—and be wise!

First rain in six weeks, laying the dust for the Danville Fair!

Won't have to wash the face of the Masonic Temple now; let the rains do it.

The buzz-saw is out of commission temporarily, having saved 400 cords of wood there isn't any place to put anymore in the old Bee Alley.

To Little Jeff.

In the Halls of the Immortals You are rarely through the portals, And the growing ranks still leave you in the van.

BEGIN HERE TODAY

The great crisis in JAMES DARRAGH'S attempt to gain possession of the flaming jewel and restore it to the beggared

COUNTRESS OF ESTHONIA, was at hand. Facing him in the moonlight, an automatic in his hand, a sworn declaration to kill him in his lips, was

MIKE CLINCH, who would stop at nothing. The flaming jewel was first stolen from the contest by

QUINTANA, the great international thief, and then from Quintana by Clinch, who had taken it to his camp in the Adirondacks, where he lived with his beautiful step-daughter,

EVE. CLINCH, Darragh, working at Clinch's under the name of HAL SMITH, learned that Quintana's gang had arrived to steal the gem from Clinch. His plans were upset when he was recognized as a former officer with the American troops in Russia. Clinch immediately forced him at the point of an automatic into the woods. There, by the side of a bottomless swamp-hole,

Go on With the Story

ON the edge of the sink-hole they halted. Smith turned and faced Clinch.

"What's the idea?" he asked with-out a quaver.

"Was you in Russia?"

"Yes."

"Was you an officer?"

"I was."

"Then you're spyin'. You're a cop."

"Ah, don't hand me none like that! You're a State Trooper or a Secret Service guy, or a plain, dirty cop. And I'm a-going to croak you."

"I'm not in any service, now."

"Wasn't you an army officer?"

"Yes. Can't an officer go wrong?"

"Soft stuff. Don't feed it to me. I told you too much anyway. I was babbin' drunk. I'm drunk now, but I got sense. D'you think I'll run chances of spyin' in State's Prison for the next ten years and leave Eve out here alone? No. I gotta shoot you, Smith. And I'm a-going to do it. G'wan and say what you want. . . . If you think there's some kind of god you can square before you croak."

"If you go to the chair for murder, what good will it do Eve?" asked Smith. His lips were crackling dry; he motioned them to him.

"Sink holes don't talk," said Clinch. "G'wan and square your self, if you're the church kind."

"Clinch," said Smith unsteadily, "if you kill me now you're as good as dead yourself. Quintana is here."

"Say, don't hand me that," retorted Clinch. "Do you square your self or no?"

"I tell you Quintana's gang were at the dance tonight—Piquet, Salazar, Georgiades, Sard, Beck, Jose Sanchez—the one who looks like a French priest. Maybe he had a beard when you saw him in that cafe washroom."

"What?" shouted Clinch in sudden fury. "What're you talkin' about, you poor dumb dingy! Yeh fann' to scare me? What do you know about Quintana? Are you one of Quintana's gang, too? Is that what you're up to, himin' out at Star Pond. Come on, now, out with it! I'll have it all out of you now, Hal Smith, before I plug you."

He came lurching forward, swinging his heavy fist as though he meant to brain his victim, but he halted after the first step or two and stood there, a shadowy bulk, growling, enraged, undecided.

And, as Smith looked at him, two shadows detached themselves from the trees behind Clinch—silently, silently glided behind—struck in utter silence.

Down crashed Clinch, black-jacked,

his face in the ooze. His pistol flew from his hand, struck Smith's leg; and Smith had it at the same instant and turned it like lightning on the murderous shadow.

"Hands up! Quick!" he cried, at bay now, and his back to the sink-hole.

Pistol leveled, he bent one knee, pushed Clinch over on his back, lest the ooze suffocate him.

"Now," he said coolly, "what do you bums want of Mike Clinch?"

"Who are you?" came a sullen voice. "This is none of your bloody business. We want Clinch, not you."

"What do you want of Clinch?"

"Answer, or I'll let go at you. What do you want of Clinch?"

"Money. What do you think?"

"You're here to stick up Clinch?"

"Yes. What's that to you?"

"What has Clinch done to you?"

"He stuck us up, that's what! Now, are you going to keep out of this?"

"No."

"We ain't going to hurt Clinch."

"Can you walk all right?" Clinch nodded.

"Well, we'd better beat it. Quintana's whole gang is in these woods, somewhere, hunting for you, and they might stumble on us here, at any moment. And, to the two men in front: 'Lie down, flat on your faces. Don't stir; don't speak; or it's you for the sink-hole. . . . Lie down, I tell you! That's it. Don't move till I tell you to.'"

Clinch got up from where he was sitting, cast one murderous glance at the prostrate forms, then followed Smith, noisily, over the stretch of sphagnum moss.

When they reached the house they saw Eve standing on the steps in her night-dress and bare feet, holding a lantern.

"Daddy," she whispered, "I was frightened. I didn't know where you had gone."

Clinch put his arm around her, turned his bloody face and looked at Smith.

"It's this," he said, "that I ain't forgetting, young fella. What you done for me you done for her. I gotta live to make a lady of her. That's why," he added thickly, "I'm much obliged to you, Hal Smith. . . . Go to bed, girly."

"You're bleeding, dad?"

"Aw, a twig scratched me. I been in the woods with Hal. G'wan to bed."

He went to the sink and washed his face, dried it, kissed the girl, and gave her a gentle shove toward the stairs.

DUGAN SCORING FIRST RUN

Today's Football Schedule

NO MATINEE SUNDAY

The Register will hold no baseball matinee Sunday, but will receive a short story on the game with score by telegraph and this will be posted on the front door of the Register Building.

Jack Scott, Cast Off in Baseball World, Wins for Giants by a 3 to 0 Score

Yankees 000 000 000—0
Giants 002 000 10x—3
Two base hits Schang, Stolen base Pipp. Sacrifice hits Frisch, Kelly. Double play Ward to Pipp, left on bases Yank 4, Giants 9; base on balls off Hoyt 2 (Frisch, Bancroft), off Scott 1 (Witt), off Jones 1 (Cunningham).
Struck out by Hoyt 2 (J. Scott, Bancroft), by J. Scott 2 (Pipp, Elmer Smith). Hits off Hoyt 11 in 7 innings, off Jones 1 in 1. Hit by pitcher Hoyt. Umpire McCormick (N) umpire in chief, at plate: Owens (A) first base, Klem (N) second base, Hildebrand (A) third base.
Time of game 1:28.

DANVILLE HIGH TO PLAY SOUTH BOSTON TEAM

The High School football squad goes to South Boston today for its second game of the season. The team has been putting in a strenuous week of practice despite the hot weather that has been hard on any football squad this year. Three times this week the boys have had a hard scrimmage and fundamentals of football have been drilled through out the week. A hard game is anticipated at South Boston, as last Saturday D. M. I. was given a beating. Now Danville High goes there to battle. It will give the relative strength of the 4 teams in the section of (Va.) namely, Martinsville, South Boston, D. M. I. and Danville High.
Coach Willis expects a hard game at South Boston.
Scrubs have shown signs of strength and twice this week all they have given the 1st team all they have wanted in the scrimmage. So picking the squad has been no easy task. About 15 men will make the trip.
The men who will make the trip follow:
Capt Campbell, Hall, Harvey, Buzzard, Minkler, Brown, Wilson, Foster, C. Foster, J. Dyer, Reeves, Morgan, Lee, Zahora, Berkerson, Tucker, Clarke, Taylor, Dickerson, Rogers, Franklin, Forley and Burgess.

The Dead Sea is 1200 feet lower than the Mediterranean.
About 600 B. C. a canal connected the Mediterranean and the Red Sea.

BREAKS RECORDS BY STAYING IN AIR OVER 35 HRS

SAN DIEGO, Cal., Oct. 6.—Lieutenant John A. Macready, and Oakley Kelly, who had been flying over San Diego since 5:56 a. m. yesterday in the monoplane T-2, landed at Rock Well field at 5:11:30 p. m. today, having broken all known records for sustained flight in the heavier than air flying machines. They were in the air 35 hours 19 minutes and 30 seconds.

HORNETS PLAY UNIVERSITY OF VA. FRESHMEN TODAY.

LYNCHBURG, Va., Oct. 6.—The Hornets of the University of Virginia Freshmen eleven Saturday on the college gridiron. Although the game is a departure from the schedule of the athletic committee, Dr. E. L. Kushner, faculty athletic representative, feels that the game will be an asset to the training of the Hornets for the Hampden-Sidney fracas the following week. Lynchburg College is not underestimating the Virgins as freshmen coach "Fighting Pat" Evans expects to keep his first string men in the line-up throughout the entire game.

The Giants Win By a Drop Kick

POLO GROUNDS, N. Y., Oct. 6.—The Giants won a drop kick that traveled at least thirty yards. Don't get me wrong. I am not describing a football contest but the third game of the world series that was played at the Polo Grounds. The Yankees were the victors of the football stunt that paved the way for the Giants' second victory of the series. The Giants' victory in the game that sent the Yankees out in front with a two-run lead came in the third inning. The Giants had threatened in the first two sessions, wasting two hits in each inning without being able to score. Scott opened on a hit and run play. Bancroft hit sharply to Wards right. The Yankee second sacker dashed on contact with Scott on first he had an easy double play in front of him. A false sound spoiled the entire afternoon for the Yankees. Instead of the ball striking Ward's glove it came into striking Ward's toe of his right foot. A beautiful drop kick that carried the ball far into left field was in. A sacrifice fly and a sacrifice hit and a base hit gave the Giants a two-run margin.
Ward's drop kick was the break of the game, the Giants made enough runs through that boost to win the ball game. "The Giants won on a drop kick" tells the story of the third game that makes the National League a strong favorite to win. The Yankees are decidedly up against it. The pitching of the Yankees has been good enough but the club has failed miserably at the bat. The Yankees made only four hits and were unable to score a run against Scott.
At the opening of the season the Cincinnati club released Scott outright because of a bad arm. Picked up by the Giants a short time before the close of the season, he is tonight the hero of the New York fans who lean towards the Yankees. In baseball it is customary to refer to a pitcher with a bad arm as a broken armed twirler. The fact that Scott held them helpless doesn't speak very well for the Yankees' pitchers.
The peculiar part of Scott's pitching was that he worked in a manner that usually meets with the approval of the Yankees' fans. He made fast ball was usually over the plate fast and he was favored by the Yankees yet they could do nothing with it. Nehf and Barnes in the first two games gona. Freshmen Coach "Fighting Pat" Evans expects to keep his first string men in the line-up throughout the entire game.

Year 'Round Comfort at a Modest Cost

The 1923 Buick Four Sedan—\$1395

The new Buick four cylinder, five-passenger sedan has every convenience and comfort of the finest closed car—and at a price that fits the purse of the average family.

The Fisher-built body is trimmed and upholstered in fine plush with hardware of a handsome pattern. Wide doors with large plate glass windows, adjustable to any position, give easy access to the roomy compartments. Silk shades, a soft dome-light and fine carpeting are all of a quality found only in higher priced closed cars.

The lower body and higher radiator and hood, give this sedan a distinguished appearance that is heightened by the crown fenders, drum type head and parking lamps.

Marked refinements in the chassis and in the famous Buick Valve-in-Head engine increase the riding comfort and add materially to the inherent Buick qualities of dependability and performance.

The Buick Line for 1923 Completes Fourteen Models:

Four—2 Pass. Roadster, \$885; 5 Pass. Touring, \$985; 3 Pass. Coupe, \$1175; 5 Pass. Sedan, \$1395; 3 Pass. Touring Sedan, \$1175; 5 Pass. Touring, \$1195; 4 Pass. Touring Sedan, \$1195; 5 Pass. Sedan, \$1195; 4 Pass. Coupe, \$1095; 2 Pass. Touring, \$1435; 2 Pass. Sedan, \$1195; Sport Roadster, \$1625; Sport Touring, \$1875; Prices include delivery, license, and taxes. Ask about the G. M. A. C. Plan, which provides for deferred payments. D-30-11-2P

DODGE BROTHERS BUSINESS SEDAN

With this car, Dodge Brothers have literally created a new type of sedan.

They have combined open car ruggedness with closed car protection and smartness.

They have demonstrated, once for all, that a sedan can be as practical and almost as inexpensive as an open touring car.

The body is built of hand-welded steel because steel is sturdy, and will take a permanent, oven-baked finish, eliminating forever the cost of repainting.

The seats are upholstered in attractive, genuine Spanish blue leather, because leather will wear and wear.

To further enlarge the car's usefulness, the rear seat back and side cushions, seat frame and foot rest are quickly removable, giving sixty-four cubic feet of flat loading space in the rear compartment. The manifold uses made possible by this unique feature are readily imagined.

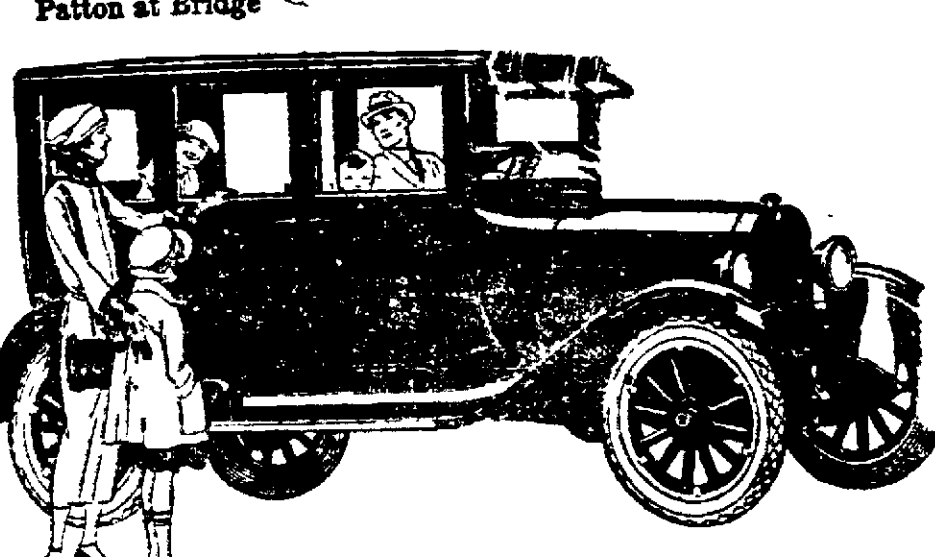

The top and rear quarters are of non-rumble, fabric construction, conforming with the present attractive vogue. From cord tires to curtain cords, the fittings, inside and out, are distinctive and complete.

In fact, every detail of the car emphasizes its striking adaptability to business as well as social use.

MAYS TO OPPOSE M'QUILLAN OR RYAN IN GAME

NEW YORK, Oct. 6.—(By The Associated Press.)—The perfect control of John Scott, curve ball pitcher, who several months ago was thrown into baseball's discard, was the outstanding feature of the third game of the world series, which was won by the Yankees.

McGraw, considered the best judge of pitching ability in baseball, who picked up Scott, a cast-off, in mid-season, said he knew this "Deacon" had plenty of stuff, but that his control was a thing to marvel at.

"Catcher Earl Smith told me," said McGraw, "that not once during the game did Scott fail to put the ball where he wanted it. His curves were breaking perfectly and after a couple of innings I just let him and Smith work as they pleased."

"I thought that our team should have counted more runs on the ball but with Scott's pitching that didn't matter. We won and the credit is all Scott's."

Huggins, the Yankee leader, also praised the Giant pitcher's work.

"We thought," he said, "that Scott would be easy for us, but his control was too good."

"I think that the error, credited to Ward, lost the game for us. It was a bad ball and Ward was hardly to blame for kicking it, but that was one of the 'breaks'." Huggins said he would start Mays in tomorrow's game and McGraw, who can afford to take a chance is to have McQuillan and Ryan ready."

LEATHER
CHICAGO, Oct. 6.—The leather situation is improving in this market. Trade is not active, but the opinion today is that low stocks will soon force the buyers into the market. Skin markets are firm at 21 to 22 cents per half and kip about the same.

GROCIERIES.
PHILADELPHIA, Oct. 6.—There is a big demand today for sugar and jars to take care of the household preserving and canning of the large fruit crops in this section.

DRUGS.
KANSAS CITY, Oct. 6.—Drug stocks are being replenished by retailers, but wholesale trade today is not yet up to normal. There is growing confidence among wholesalers, however, that better conditions are in prospect.

FURNITURE.
NEW ORLEANS, Oct. 6.—Manufacturers of both iron and wooden furniture are sold several months ahead and are working at full capacity today. Business continues active with the retailers and is 20 to 25 per cent ahead of last fall, which was the best season of the autumn ever experienced in New Orleans.

TOBACCO
LANCASTER, Pa., Oct. 6.—Experts declared today that the tobacco crop in this state would be up to normal, or about 60,000,000 pounds. Large quantities of the 1931 crop have been sold and early buying of the current crop is anticipated.

FORT WORTH, Oct. 6.—In the pecan belt the crop today appears to have been a total failure because of the dry weather which has been prevalent since last May.

POST-SEASON FOOTBALL HAS BEEN BANNED

ATLANTA, Ga., Oct. 6.—Post-season football between Universities and Colleges holding membership in the Southern Intercollegiate Athletic Association will be barred this year under a ruling made by the executive committee of that organization at a meeting here tonight.

The ruling probably will effect the game schedule for Havana, Cuba, on Christmas Day between the University of Florida and Louisiana State, and the game between the University of Georgia and the University of Alabama, which is scheduled for the Saturday immediately following Thanksgiving Day.

All members of the committee were present at tonight's meeting except Thomas W. Atkinson, of Louisiana State University. It was also ruled that scholastic and resident rules would be strictly enforced.

A request from eight members of the association asking that they be permitted to play freshmen in competition with each other and with large colleges where the larger institutions were favorable to the waiver, was denied by the committee, which ruled that it had no authority to waive the one year rule or any other rule of the association. The institutions making the requests were the University of Chattanooga, Mississippi College, Birmingham Southern, Howard, Transylvania, Mercer College and Oglethorpe and Mercer Universities.

A exception to this ruling was made in the case of Davidson College of North Carolina, which will be permitted to play freshmen against Georgia Tech owing to the fact that the contract between these two institutions was entered into before the one-year rule was adopted by the S. I. A. A. This would also apply to any other S. I. A. A. teams it was stated.

GARMENT MAKERS SPECIAL PROGRAM

CAPE CHARLES, Va., Oct. 6.—A special grand jury was convened tomorrow by Judge N. B. Westcott of Circuit court for consideration of presentments against Mark W. Sissler and his wife, who are charged with the murder of Jesse J. Hurst, wealthy Accomack county merchant, several days ago. The coroners' jury, which began an investigation of the killing earlier in the week, will complete its work tomorrow.

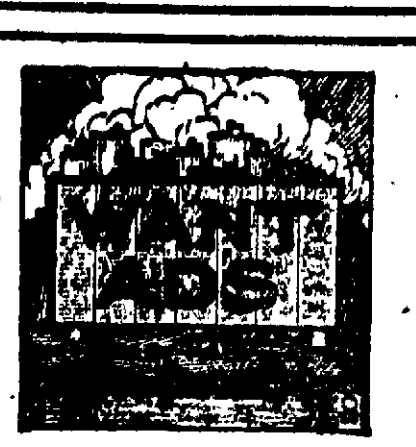

Sissler denies knowledge of the killing, declaring that he found Hurst's body at the back door of his store in Parkside.

Sissler and his wife lived above Hurst's store and in a raid of the premises, after the finding of Hurst's body the officers found a still in the attic. Sissler said he was making the whiskey and Hurst was selling it for him.

RAIN PROMISED THIS SECTION

WASHINGTON, Oct. 6.—Moisture marked the parched features of the day tonight as the weather men pointed to the first showers in nearly a month today and promised more. Nature's sudden shifting of the recent unnatural arrangement of high and low pressure crops was given credit for the relief from the long turn of drought.

Showers were forecast within the next thirty-six hours generally east of the Mississippi river, Maine, the Mississippi and Missouri valleys, the central and Southern plain states. Tennessee and the middle and east of Gulf sections and parts of the Southeast Atlantic area, received word of rain today.

Intersectional Games For Today

ATLANTA, Oct. 6.—Four of Dixie's leading football teams will set out today in the heart of the South for sectional games, while most of the others still are playing lighter opponents.

Virginia will meet Princeton and North Carolina will play Yale, while Georgia is tackling the University of Chicago and Sewanee tries her mettle against Pennsylvania University. All of the southern eleven will be playing on their opponents' fields and Georgia and Virginia will be playing their particular opponents for the first time. Virginia and North Carolina, however, met the same teams last year, and Princeton turned back the ups of the Georgia Tech.

Washington and Lee and North Carolina State playing at Lexington will furnish a southern field Saturday, although the heavy "Generals" are expected to make the going hard for the new men representing the Tar Heels State college. Center will play Mississippi in Danville, Ky., Maryland will visit Virginia for a game with the Richmond University. Auburn will play Davidson, Georgia Tech will play Davidson, Alabama and Oglethorpe will meet, and Georgetown University of Washington will play Lebanon in some of the other principal games of the day.

BELIEVE OIL BOOM TO RIVAL GOLD RUSH DAYS

ANCHORAGE, Alaska, Oct. 6.—Announcement that big oil interests will soon start drilling for oil in the Gold Bay district of Alaska promises to bring the thrilling scenes of gold rush days to life again, according to men who have watched the action recently. For this new oil country, say those who know something of the hardships attendant upon a stampede, is probably more rigorous than the wind and snow storms surrounding Cape Nome.

The Barrens at Cold Bay offer no shelter against the sweep of the wind, will add to the suffering of the prospectors who plan to invade the country.

The uninviting prospect, however, will not hold back the adventurers, for already the regular steamers and launches are playing between Kodiak and Kodiak are being to capacity week ahead. Of these the men entering from Alaska will have the advantage of being outfitted for an indefinite stay and already hardened to the rigors of the northern winter.

Rival interests have been shipping lumber and supplies into the district for some time and the erection of a room town is expected to soon take place at several designated points. Many of the promoters, according to those on the ground, are merely there to make their stake out of the general conditions surrounding the boom.

Of the others who are joining the rush, some are only going in for the adventure while a few will seriously attempt the exploitation of the resources presumed to be there. The announcement has served to stimulate interest in other parts of the territory and efforts are being made to attract attention to discoveries made in the Anchorage and Sushina valleys.

SUNFLOWER IS POPULAR AGAIN

CALGARY, Alta., Oct. 6.—Sunflowers, indigenous to several parts of the United States, are to be taken up by the English aristocracy. Next year, they probably will be the favorite of the Earl of Stratford, and nodding their free American head over the hedge rows, will look British noblemen in the eye.

The Earl of Stratford was one of a party of members of the British parliament visiting Canada. While in Calgary, he was taken to a farm near Strathmore where he witnessed the harvesting of the sunflower crop.

The Earl, an extensive farmer and stockraiser, was so impressed with the value of sunflowers as silage for winter feed that he announced his intention of introducing them into England and giving them a trial next year on his estate.

AGREEMENT REACHED IN SOUTHEASTERN ROADS.

BY W. W. THOMAS.
ATLANTA, Oct. 6.—Announcement of the reach of an agreement between the Southeastern Railway and the trainmen as to wages for the coming year added today to the optimism with which the business situation is viewed here. The agreement, which was reached after a month of building construction broke all records and retail establishments are in the midst of the busiest days they have had this year.

The hog-raising season in Georgia, Alabama and Florida is under way and the Southern packing houses are preparing for the largest volume of business in their history. Hogs are lighter than last year, but more numerous and are being marketed rapidly because of shortage of feed. Prices are such as to return a profit to the farmers.

FREIGHT LOADINGS ABOVE LAST YEAR

ST. LOUIS, Oct. 6.—Freight loadings are well above those of last year and these are reflected in satisfactory railroad earnings. The gross receipts of the major Northwest railroads continue today to show gains over last year. But operating expenses items also show a heavy increase.

GOOD LABOR IS GROWING SCARCER.

BY PHIL HANNA.
DETROIT, Oct. 6.—"There seems no end to the stream of incoming orders," good labor is growing continually scarcer and freight congestion is increasing. Detroit is facing a period of good business which is not good business."

The building trades here continue to reflect scarcity of good labor. Contractors are advertising for bricklayers at \$1 an hour, and plasterers are advertising \$11 a day and 80 per cent. Business men, however, believe neither the freight nor labor situation will have more than a passing effect.

MERCHANTS MAKING LARGE PURCHASES

ST. LOUIS, Oct. 6.—Merchants began this week to make large purchases to replenish depleted stocks and indications are today that their buying will increase steadily as commerce has attained normal in this territory. Agriculturists, manufacturers and distributors are flourishing and the buying power of the public is increasing.

Receipts of livestock continue large, although most of the cattle are of ordinary quality. High-class stocks command relatively high prices, but there is still considerable delay due to faulty car service. The demand for building materials continues persistently strong.

UNDESIRABLE ACCOUNTS HAVE GROWN LARGER

PHILADELPHIA, Oct. 6.—Out of the six hundred thousand accounts filed in the archives of the Retail Merchants' Credit Association, about 21,000 or 3.12 per cent have been marked "undesirable." This percentage has grown in the last year. Officers of the association account for this by the extravagant methods of the war-time wages.

PACIFIC COAST CANNED GOODS BEING SHIPPED

CHICAGO, Oct. 6.—Pacific coast canned goods are now being shipped to Chicago by way of the Panama canal and the port of Philadelphia at least one hundred pounds less than the rate from the Pacific ports to Chicago. Philadelphia is the nearest Atlantic port to Chicago.

CANNED GOODS.
SAN FRANCISCO, Oct. 6.—Inter-coastal shipping lines reported today heavy tonnages of California canned fruits and vegetables have been dispatched to the Atlantic seaboard by way of the Panama canal within the last week.

FRUIT.
NEW ORLEANS, Oct. 6.—The Louisiana orange crop is the most promising of several years. It will begin to move within a week. About 60,000 boxes are expected, which is 10 per cent more than last season.

DRY GOODS.
ST. LOUIS, Oct. 6.—Dry goods and ready-made clothing manufacturers reported today a strong demand for the better grades of merchandise. This is a reflection of an increased buying power of the public throughout this section.

HARDWARE.
PHILADELPHIA, Oct. 6.—Hard-ware manufacturing plants here have been operating at 100 per cent of capacity but there has been no accumulation of stock as building operations have kept business extremely brisk.

GRAIN.
CHICAGO, Oct. 6.—Conditions in the agricultural districts of the Middle West show the particular improvement today. There is top great a spread between the price of wheat and corn and industrial products. Farmers are growing about the wages paid in other lines of industry. Crops are bulky, but the farmer is more interested in the prices his products will bring than in the amount he raises.

DAIRY PRODUCTS.
CHICAGO, Oct. 6.—Butter is firm and the demand is good today. Eggs are plentiful at fair prices. The cheese market is unchanged.

YOUNGSTOWN, Ohio, Oct. 6.—The Falcon Steel Company, of Niles, has suspended four sheet mills due to a shortage. Eight mills of the Republic Iron and Steel Company at Niles are closed for the same reason. In other plants operating schedules are being maintained. Ingot production averages about 20 per cent while all three Bessemer converters in the Mahoning Valley are operating.

PITTSBURGH, Oct. 6.—The Carnegie Steel Company today is operating 36 of its 35 blast furnaces. More stacks will be added to the active list as soon as shipping facilities permit.

Guess What

Leader of the Ku Klux Klan addressing his followers? No, the statue of Edmund Burke, friend of the American colonies, which will be unveiled at Washington, Oct. 12.

3. Every dollar will be in absolute safety.

4. Our painstaking, helpful service will please you.

One Dollar is enough to start.

RESOURCES OVER EIGHT MILLION DOLLARS

CHICAGO, Oct. 6.—Six hundred thousand tons of rails have been ordered by the railroads in this district to date and other heavy buying has been done by the railroads from the steel companies.

SEATTLE, Oct. 6.—Coal operators outside of the railroad owned mines in Washington are facing serious competition with low priced fuel oil from California now quoted at \$1.10 per barrel on track. At this price a barrel of oil is equivalent to a ton of coal at \$3.50. Coal operators say they cannot mine coal at this price and make a profit.

PHILADELPHIA, Oct. 6.—Fuel scarcity has brought a few hundred tons of British coke here which is being sold at \$11 to \$12 a ton on cars, compared with \$14 for domestic coke.

Now For the Fair
The next thing on the program is the Danville Fair which opens Tuesday. All the new fall toggers will be out and to look for the best you need our sanitary laundry service with the beautiful snow-white finish to top-off your good looks. "ORDER PUBLICATION."
Issued by order of the Clerk of the Corporation Court of Danville, entered on the 22nd day of September, 1932. VIRGINIA.

In the Clerk's Office of the Corporation Court of Danville, on the 22nd day of September, 1932. Dave Saunders Plaintiff against Ruth Saunders Defendant

IN CHANCERY.
The object of this suit is to obtain from the said Court a decree divorcing the plaintiff Dave Saunders, a vinculo matrimonii from the said defendant, Ruth Saunders, on the grounds of adultery.

And an affidavit having been made and duly filed that diligence has been used by or on behalf of the plaintiff to ascertain in what County or Corporation the said defendant is without effect. It is therefore ordered that she do appear here within ten days after due publication of this order once a week for four successive weeks in The Bee a newspaper published in the City of Danville, Virginia, and do what is necessary to protect her interest in this suit.

JAPAN BUILDS NEW HOME FOR NATURAL DIET

TOKIO, Oct. 6.—The steel skeleton of Japan's new diet building which is being erected at Kasumigaseki, not far from the Imperial Palace in Tokyo, is beginning to show itself over the tops of the trees by which it is surrounded. The structure is to be the third largest parliament building in the world, the capital at Washington and the House of Parliament in London being the only ones to exceed it in size.

The estimated cost is 22,500,000 yen, which is being spent at the rate of 3,000,000 a year, so that it will be another six years before it is completed. It was started two years ago.

Steel used in the structure and the concrete is from local plants. Interior fittings, electrical apparatus, glass and heating apparatus, will be purchased from Japanese manufacturers if they can supply suitable materials. Mr. Kimoto, chief of construction, fears that French glass may have to be ordered but points out that local glass manufacturers have some five or six years yet to produce a satisfactory

grade of their product. Elevators probably will come from abroad. The site is one of the best in the world. Standing on a high elevation, the building will face eastward over a dense of the foreign office and surrounding embassies and legations, down the broad expanse of Uchisaiwaicho and over Tsukiji, the old foreign settlement, and Tokyo Bay. In this long vista improvements are already being made by the removal of obstructions to the view.

GERMAN COINS ARE PRO- HIBITED IN NEW GUINEA

SYDNEY, N. S. W., Oct. 6.—The use of German coins or currency in the mandated territory of New Guinea has been prohibited by an ordinance issued by the federal government, under a penalty of 100 pounds or six months imprisonment. Natives, however, may use their own money for trade purposes or for fees, taxes or other excises.

The ordinance also prohibited the use of tokens and counters for trade purposes or wages and provided that a portion of a shell known as "Gold Shell" may be used as legal tender at the rate of 12 shillings a pair, except for the purchase of barter of truchus shell. Religious or charitable institutions operating in the territory are exempted from the prohibitions of the ordinance.

IS NOT THIS REQUEST REASONABLE

We have filed with the City Council Committee our request that we be allowed to use ONE-MAN Safety cars on all our lines except on Saturday and except during the morning, noon and afternoon rush hours.

The Council may repeal the ordinance granting us the one-man car privilege at any time.

All cars operated by one man, to be equipped with special safety devices for the operation and control of the cars by one man.

We agree to maintain the same schedules that are now in effect.

HUMOR'S SOBER SIDE!

BY JOSEPHINE VAN DE GRIFT

Being a woman humorist, Dorothy Parker, dramatic critic for Ainslee's Magazine, and free lancer for the Saturday Evening Post and others, specializes in last words. Miss Parker wouldn't specialize in words at all, she says, were it not for the howling of the wolf immediately outside the door of her little office in the New York Metropolitan Opera House. The building, however, is given over considerably to vocal studios so it may not be the wolf that is driving Miss Parker to industry.

So far as her verse is concerned her methods, she admits, have a certain kinship to those of that clever chap you met when you were just out of high school who wrote you one time from Peoria that he had a momentous question to ask. He mooned on about this question for nine pages until you got all thrilled and were dead certain it was a proposal. At the top of page 10 he came right out with it and wanted to know if you thought it was time to change his winer underwear.

Miss Parker's system is to work up to a high pitch of emotion or even tears with what would be good poetry anyway and then destroy it all with a devastating last line.

"Everything I've ever written looks wretched to me," she says, "but here is one I dislike rather less than the rest."

SONG OF A MINOR KEY

There's a place I know where the birds swing low.

And wayward vines go roaming.

Where the lilacs nod and a marble god

Shines pale in scented gloaming.

And at sunset there comes a lady fair

Whose eyes are deep with yearning.

By an old, old gate does the lady wait

Her own true love's returning.

But the dais sweep by, and the lilacs die.

And the trembling birds seek cover

Yet the lady stands, with cool white hands.

Outstretched to greet her lover.

And it's there she'll stay till one shadowy day

A monument they'll grave her.

She will always wait by that same old gate

The gate her true love gave her.

"I don't know whether I'm really a humorist or not," she maintains, "but if I am, you can put it down

DOROTHY PARKER

that it's nothing but pure unalloyed bio odswearing. I don't mind the poetry so much—it's a regular dig-a-puzzle and as an infant I took great satisfaction in tidley-winks and pigs-in-poke! But I'd rather sweep streets than write prose. I was two years, off and on, writing "An Apartment House Anthology." It was accepted within a week which was the only mitigating circumstance. The other side—being commissioned to write—is just as bad. Even once in a while, when the office comes due and the vice boy springs a leak—again—and Errol Wong opens his teeth and starts rapping at Lili Dorothy, it so happens that life will send in word that they're getting out a special number on bed springs in three weeks and to have something bright and snappy for it.

"And you say, 'Oh my, here's a summat for the plumber. And you sit down before your typewriter—and sit and sit and sit. And the moon goes up and at stars come out—and you sit and sit and sit.'"

Think Mrs. Felton Unlikely to Serve

Officials Doubt First Woman Senator Will Get Seat Even for a Day—Law and Custom Held Bar.

WASHINGTON, Oct. 6.—Well-wishers, who have tried to assure out a way whereby Mrs. William H. Felton, of Georgia, the first woman senator, may be "sworn in" for at least one day's service in the United States Senate, practically abandoned the program today. Senatorial authorities hold that however much the Senate and Georgia would like to accord actual service in the upper chamber to Mrs. Felton, it cannot be arranged.

While Mrs. Felton now is junior senator from Georgia by appointment and entitled to the pay and perquisites of a senator until November 7, election day, it is held that under national and state law she will be divested of her title and office as soon as a successor is named.

Reports from Georgia are that each of the seven candidates now in the Senatorial primary, which will determine the successor to the late Senator Thomas E. Watson, has expressed a willingness to hold back his credentials a day or so and allow Mrs. Felton to take the oath of office. This courtesy each candidate, assuming he will be successful, is willing to accord Mrs. Felton, but both law and custom stand in the way. Officials of the Senate and senators who discussed the matter informally today said the plan was impossible, though every one might like to see it go through. The law, they say, is that a senator appointed by a governor may serve only until a successor is elected. As soon as the results of the Georgia primary are known and certified, they hold, Mrs. Felton has been succeeded. She may be called senator and draw a senator's salary only until the day after the Congressional election, or November 8.

It is recalled that Vice-President Marshall ruled that an appointed senator lost his office the day following election day.

It was reasoned by the then presiding officer of the Senate that an additional day reasonably was required for the counting and certification of results, but as soon as the ballots were counted and certified a new senator actually had been "elected" and the temporary appointee became an "ex-senator."

Under this construction Senator Charles Rawson, of Iowa, now filling temporary vacancy, will cease to be senator, along with Mrs. Felton, on November 8.

Since there is no prospect of the Senate being in session before election day, the Georgia appointee cannot be sworn in, although she will enjoy for five weeks the emoluments and prestige of the office and go down in legislative history as the first woman senator.

GUNBOAT HAS SAILED

VERA CRUZ, Oct. 6.—The Gunboat Zaragoza has sailed for Tuxpan with 500 soldiers to reinforce the federal military in the oil region where renewal of rebel activities is reported. Additional reinforcements will leave Sunday on the Steamship Nacional.

JUNIOR GIRL'S NEW CLOTHES

Half-way between the little girl and the young woman, no longer called a flapper, comes the junior and the problem of her new clothes for fall has brought out some very pretty solutions.

Jersey and wool crepe are favorite materials and especially, perhaps, a new wool jersey with a silk stripe.

Navy serge is good, too, and is often made in suspender dresses with pleated skirts that have pongee or dimity blouses with them.

There's not much trimming used, line collars and cuffs maybe and a bright-colored patch of peasant or cross stitch embroidery.

The two models shown are very good and the one with long pleats is said to be especially popular.

HANGMEN HANG BACK ON JOB

WOODSTOCK, N. B., Oct. 6.—Benny Swann, a convicted murderer who was temporarily reprieved until hangmen could be found who would spring the trap, was hanged today with two men trying three times to do the job. Swann was convicted of shooting his cousin, Mrs. Olive Swann Trenhelme and her husband Harvey Trenhelme.

He was first ordered hanged on July 15. Pleading insanity however, he won a reprieve until September 15, but on that date no hangman could be found. Today two men who gave the fictitious name of "M. A. Doyle" sprang the trap. The first man tried it twice but it failed to work. The second finally worked it successfully.

More than 3,000,000 pounds of Spanish material are shipped from Ray West yearly.

REAL ESTATE MEN MEET IN ROANOKE

ROANOKE, Va., Oct. 6.—Addressed by Henry G. Shirley, chairman of the State Highway Commission of Richmond and William E. Herron, field secretary of the Association of Real Estate Bonds featured the first day's session of the Virginia Real Estate Association here today. In his address before the convention Shirley went onto the roads situation in this state in detail, and said that the imposition of a two cent gasoline tax is the solution of handling and financing the good road system of this state. He further pointed out that this tax should be levied in addition to the proposed \$12,000,000 bond issue. In this instance he pointed out that the city people as well as the farmers would have an equal burden to bear in building the roads in Virginia. He said that there is one automobile to every 13 persons in the state and that they would do their share in financing of the roads by paying the gasoline tax, while the farmers will put his shoulder to the wheel when it comes to passing the \$12,000,000 bond issue.

To complete the highway system as outlined for this state he said it will take \$50,000,000, which can be adequately cared for through the gasoline tax, the one mill tax and the bond issue. If these proposed plans are carried out the road system in Virginia will be completed in time for the present generation to enjoy it. Mr. Shirley pointed out.

He also showed that the water power of the Piedmont section, which included Virginia, North Carolina and South Carolina is of such importance that it will materially aid in getting the big industries to locate in this section. "Good roads," he said, "will prove to be another big factor in bringing business to Virginia."

INSURANCE AGENTS
IN FINAL SESSION

HOT SPRINGS, Ark., Oct. 6.—General discussion of automobile insurance addresses by R. E. Currier, Black Mountain, N. C., and T. Alfred Fleming, supervisor of the conservation department of the National Board of Fire Underwriters, the election of officers and submission of the report of the resolutions committee made up on the program for the final sessions here today of the 27th annual convention of The National Association of Insurance Agents.
